

**Evanstonians:**  
Help birds,  
butterflies, bees,  
and our city by...

Natural Habitat Evanston envisions an Evanston community culture that nurtures pollinators and birds, and their habitat.

...certifying your garden as a *National Wildlife Federation* (NWF) Habitat.

A program of Citizens' Greener Evanston

## Readying your garden can be surprisingly easy

There are low-cost, low-labor ways to provide food, water, cover and a place for birds and pollinators to raise their young.

## Certifying your garden is also easy

Just complete an NWF online checklist and pay \$50\*. You'll receive a yard sign to spread the word to your neighbors. Schools, businesses, places of workshop and others can also certify!

\* For low income gardeners, funding to cover the fee may be available.  
Email [Habitat@NaturalHabitatEvanston.Org](mailto:Habitat@NaturalHabitatEvanston.Org)

## Here's how your certification helps Evanston

We aspire to be the first city in Illinois to join 90+ others in the US in being an NWF Certified Community Habitat. To achieve this goal we need more NWF-certified gardens. As of March 1st 2018 we are about 2/3rds of the way there.
