Brazilian Skipper  	Phaon Crescent  	White Peacock  	Red Admiral  	Common Buckeye  	

WHEN PLANNING YOUR BUTTERFLY GARDEN, DON'T JUST CHOOSE PLANTS THAT PROVIDE NECTAR FOR THE BUTTERFLIES, ALSO INCLUDE HOST PLANTS THAT WILL PROVIDE FOOD FOR CATERpillARS. AS A RESULT, YOU'LL HAVE MORE BUTTERFLIES AND THEY WILL LINGER IN YOUR GARDEN LONGER. BUTTERFLIES PREFER A SUNNY LOCATION, SHELTERED FROM WIND. FOR MORE INFORMATION CONTACT NATURESCAPE BROWARD AT BROWARD.ORG/NATURESCAPE.
